Index to Volume 179

Ananthakrishnan R, *see* Marin-Garcia J *et al.*
Anogianakis G, *see* Reale M *et al.*

Barbacane RC, *see* Reale M *et al.*
Battell ML, Delgatty HLM, McNeill JH: Sodium selenate corrects glucose tolerance and heart function in STZ diabetic rats 27–34
Belcastro AN, Shewchuk LD, Raj DA: Exercise-induced muscle injury: a calpain hypothesis 135–145
Benz RJ, Frident J, Lieber RL: Simultaneous stiffness and force measurements reveal subtle injury to rabbit soleus muscles 147–158
Bhullar RP, Yang S: Immunodetection of *Ral*A and *Ral*B GTP-binding proteins in various rat tissues and platelets 49–55
Bracht A, *see* Minguetti-Câmara VC *et al.*

Cannon JG, St. Pierre BA: Cytokines in exertion-induced skeletal muscle injury 159–168
Cataldo I, *see* Reale M *et al.*
Connock MJ, *see* Tappia PS *et al.*
Constantin J, *see* Minguetti-Câmara VC *et al.*
Conti P, *see* Reale M *et al.*

Delgatty HLM, *see* Battell ML *et al.*
DiGioacchino M, *see* Reale M *et al.*

Felaco M, *see* Reale M *et al.*
Frident J, *see* Benz RJ *et al.*
Frydas S, *see* Reale M *et al.*

Goldenthal MJ, *see* Marin-Garcia J *et al.*
Gute DC, Ishida T, Yarimizu K, Korthuis RJ: Inflammatory responses to ischemia and reperfusion in skeletal muscle 169–187

Hussain SNA: Respiratory muscle dysfunction in sepsis 125–134

Ishida T, *see* Gute DC *et al.*
Ishii-Iwamoto EL, *see* Minguetti-Câmara VC *et al.*

Jiang T-X, *see* Road JD
Jones CJP, *see* Tappia PS *et al.*
Jubran A, *see* Tobin MJ *et al.*

Korthuis RJ, *see* Gute DC *et al.*

Laghi F, *see* Tobin MJ *et al.*
Lieber RL, *see* Benz RJ *et al.*

Marin-Garcia J, Ananthakrishnan R, Goldenthal MJ: Human mitochondrial function during cardiac growth and development 21–26
McGowan N, *see* Reid WD *et al.*
McNeill JH, *see* Battell ML *et al.*
Minguetti-Câmara VC, Constantin J, Suzuki-Kemmelmeier F, Ishii-Iwamoto EL, Bracht A: Hepatic heterogeneity in the response to ATP studied in the bivascularly perfused rat liver 35–48

Ortega E, *see* Osorio A *et al.*
Osorio A, Ruiz E, Ortega E: Possible role of GH/IGF-1 in the ovarian function of adult hypothyroid rats 7–11

Petrof BJ: The molecular basis of activity-induced muscle injury in Duchenne muscular dystrophy 111–124

Raj DA, *see* Belcastro AN *et al.*
Reale, M, Frydas S, Barbacane RC, Placido FC, Cataldo I, Vacalis D, Trakatellis A, Anogianakis G, Felaco M, DiGioacchino M, Conti P: Induction of monocyte chemotactic protein-1 (MCP-1) and TNF alpha by *Trichinella spiralis* in serum of mice *in vivo* 1–5
Reid WD: Respiratory muscle injury: is it important? 59–61
Reid WD, MacGowan N: Respiratory muscle injury in animal models and humans 63–80
Road JD, Jiang T-X: Determinants of diaphragmatic injury 81–86
Ruiz E, *see* Osorio A *et al.*

Shewchuk LD, *see* Belcastro AN *et al.*
Smith CA, *see* Stauber WT *et al.*
Stauber WT, Smith CA: Cellular responses in exertion-induced skeletal muscle injury 189–196
St. Pierre BA, *see* Cannon JG
Supinski G: Free radical induced respiratory muscle dysfunction 99–110
Suzuki-Kemmelmeier F, *see* Minguetti-Câmara VC *et al.*

Tappia PS, Jones CJP, Connock MJ: Purification of guinea pig small intestinal peroxisomes and the subcellular localization of glucose-6-phosphate dehydrogenase 13–20
Tobin MJ, Laghi F, Jubran A: Respiratory muscle dysfunction in mechanically-ventilated patients 87–98
Trakatellis A, *see* Reale M *et al.*

Vacalis D, *see* Reale M *et al.*

Yang S, *see* Bhullar RP
Yarimizu K, *see* Gute DC *et al.*
